

QUALITY AND ENVIRONMENTAL POLICY

METALGAR, S.L. considers Quality and the Environment as key factors for achieving the highest business environment, regarding its own activity of plastic *production and assembly, pressure controllers' assembly and flowmeters for medical use, control panels' assembly and alarms for hospital use, logistics operator and distribution of medical devices* and it includes the Quality and Environmental policy within its global strategic policy.

For this reason, it states the following:

- Resources at its disposal will be used to meet the customer's requirements and, once accepted, ensure the customer's satisfaction.
- The Policy suits the nature, magnitude and environmental impacts of the company's activities, products and services within the defined scope. The Policy is implemented, updated and let known by every member of the staff, including those that work on behalf of the organisation.
- The Board of Directors of METALGAR, S.L. assumes the fulfilment of the Regulation and the applicable Legislation.
- It will determine and comply the applicable law and official regulations, as well as client requirement and those requirements that the organisation voluntarily subscribes to while constantly evaluating such implementation.
- It will ensure quality as one of the company's main principles, establishing and developing an Integrating Management System that is based on the standard UNE-EN ISO 9001:2015, UNE-EN- ISO 14001:2015 and UNE-EN ISO 13485:2018.
- The Board of Directors will take an active part in the system's development and in the control of the various indicators with a view to maintain the efficiency of the Integrating Management System, the continuous improvement and the improvement of the customers' satisfaction.
- It will constantly improve the service's quality as well as its behaviour towards environmental impacts, either actual or potential, that its activity has on nature, through the establishment of goals and targets.
- It will prevent the pollution that METALGAR, S.L. may generate in the development of its activity and its service and make the best possible use of resources.
- It will adequately disseminate this policy within METALGAR S.L. for raising the awareness of all the people belonging to the organisation.

For meeting all the preceding paragraphs, the organisation, through the Quality and Environment Committee, will establish a series of goals and targets through which it will draw its System Planning. All of them will be reviewed once a year.

This policy will be known by every member of the staff and it will be freely handed out to all public or private institutions that would be in contact with the organisation, as well as anyone that may request for it.

José Manuel García Melero
CEO Metalgar, S.L.
